MONARQUES GOLD CORPORATION

MANAGEMENT'S REPORT

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying unaudited consolidated condensed interim financial statements have been prepared by management and are in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board. The management is responsible for the preparation, integrity and objectivity of the unaudited consolidated condensed interim financial statements and other financial information presented in this Report. Other information included in these unaudited consolidated condensed interim financial statements are based on estimates and judgments. Management has determined such amounts on a reasonable basis in order to ensure that the unaudited consolidated condensed interim financial statements are presented fairly in all material respects.

A system of administrative, internal accounting and disclosure controls have been developed and are maintained by management to provide reasonable assurance that assets are safeguarded and that financial information is accurate and reliable.

The Board of Directors is responsible for ensuring that management fulfills its responsibilities for financial reporting and is ultimately responsible for reviewing and approving the financial statements. The Board carries out this responsibility principally through its Audit Committee. The Audit Committee is appointed by the Board and is mainly composed of independent directors. The Audit Committee meets periodically with management and the independent auditors to review accounting, auditing and internal control matters. These unaudited consolidated condensed interim financial statements have been reviewed and approved by the Board of Directors on the recommendation of the Audit Committee.

The unaudited consolidated condensed interim financial statements for the three-month and nine-month periods ended March 31, 2017 and 2016 have not been reviewed by KPMG LLP, the independent auditors.

INTERNAL CONTROL OVER FINANCIAL REPORTING

The Management is responsible for establishing and maintaining adequate internal control over financial reporting. The Company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS.

The Company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of assets; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with IFRS, and that all transactions are being made only in accordance with the authorizations of management and/or directors of the Company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements. However, because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements.

Additional information relating to consolidated condensed interim statements of cash flows (Note 14)

The notes on pages 7 to 22 are an integral part of these consolidated condensed interim financial statements.

1. REPORTING ENTITY AND NATURE OF OPERATIONS:

Monarques Gold Corporation (the "Company"), incorporated on February 16, 2011, under the *Canada Business Corporations Act*, is engaged in the acquisition and exploration of mining properties. Its shares trade on the TSX Venture Stock Exchange under the symbol MQR. Its activities are in Canada.

The address of the head office of the Company is 1, Place Ville Marie, Suite 2901, Montréal (Québec), Canada H3B 0E9 and the web site is www.monarquesgold.com.

The Company has incorporated under the *Canada Corporation Act* a wholly-owned subsidiary, on August 2016, which is Beacon Gold Mill Inc.

The Company has not yet determined if the properties contain ore reserves that are economically recoverable. Although the Company has taken steps to verify title to mineral properties in which it has an interest in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements and non-compliance with regulatory requirements.

The recoverability of amounts shown for mining properties and related exploration and evaluation assets is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development, and future profitable production or proceeds from the disposition thereof. As at the date of the consolidated condensed interim financial statements, management determined that the carrying amount of mining properties represents the best estimate of their net recoverable value. This value may nonetheless be reduced in the future.

2. GOING CONCERN:

Management estimates that the working capital available to the Company at the end of the period will provide the Company with adequate funding in order to cover its 2017 and 2018 calendar year budget for general administrative expenses, to meet its short-term obligations, and to complete its planned 2017 and 2018 calendar year exploration budget. However, since the Company does not generate revenues, the Company will need to periodically obtain new funds to pursue its operations and meet its obligation related to the acquisition of the Beacon property and the design and building of a power line for the Croinor property (refer to Note 6). Despite its ability to obtain funds in the past, there is no guarantee that the Company will be able to raise financing in the future.

As at March 31, 2017, all of the Company’s financial liabilities (except the balance of purchase price payable) had contractual maturities of less than one year and the Company had enough funds available to meet its current financial liabilities. At the same date, the Company had $4,183,096 in cash and cash equivalents not reserved for exploration or for the design and build of the power line on Croinor property ($4,006,691 as at June 30, 2016). The total working capital (excluding funds reserved for exploration, design and build of the power line on Croinor property and liability related to flow-through shares) of $3,788,944 will be used to meet its financial liabilities and future financial liabilities from its commitments mainly related to the acquisition of the Beacon property and the development of the Croinor property. The Company had $4,913,632 ($56,046 as at June 30, 2016) of funds reserved for exploration and $421,219 ($643,740 as at June 30, 2016) for design and build the power line at Croinor property as at March 31, 2017.

2. GOING CONCERN (CONTINUED):

These unaudited consolidated condensed interim financial statements have been prepared in accordance with the International Financial Reporting Standards ("IFRS") and on the assumption of going concern. The application of IFRS under the assumption of going concern may be inappropriate because the above condition indicates the existence of a material uncertainty which may cast significant doubt on the ability of the Company to continue as a going concern. These unaudited consolidated condensed interim financial statements do not include adjustments that should be made to the carrying amount of assets and liabilities if the assumption of going concern proves to be unfounded.

3. BASIS OF PREPARATION:

(A) STATEMENT OF COMPLIANCE:

These unaudited consolidated condensed interim financial statements have been prepared in accordance with IFRS, as issued by the International Accounting Standards Board ("IASB") on a basis consistent with those accounting policies followed by the Company in the most recent audited annual financial statements, except where noted below. These unaudited consolidated condensed interim financial statements have been prepared under IFRS in accordance with IAS 34, *Interim Financial Reporting*. Certain information, in particular the accompanying notes, normally included in the audited annual financial statements prepared in accordance with IFRS has been omitted or condensed. Accordingly, these unaudited consolidated condensed interim financial statements do not include all the information required for full annual financial statements and, therefore, should be read in conjunction with the audited annual financial statements and the notes thereto for the year ended June 30, 2016. On May 23, 2017, the Board of Directors approved, for issuance, these unaudited consolidated condensed interim financial statements.

(B) BASIS OF MEASUREMENT:

The unaudited consolidated condensed interim financial statements have been prepared on the historical cost basis.

The unaudited consolidated condensed interim financial statements have been prepared on a going concern basis, meaning the Company will be able to realize its assets and discharge its liabilities in the normal course of operations.

(C) FUNCTIONAL AND PRESENTATION CURRENCY:

These unaudited consolidated condensed interim financial statements are presented in Canadian dollars, which is the Company's functional currency.

3. BASIS OF PREPARATION (CONTINUED):

(D) USE OF ESTIMATES AND JUDGMENTS:

The preparation of the unaudited consolidated condensed interim financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future years affected.

In preparing these unaudited consolidated condensed interim financial statements, the significant judgments made by management applying the Company accounting policies and the key sources of estimation uncertainty were the same as those described in the Company's audited annual financial statements for the year ended June 30, 2016.

4. SIGNIFICANT ACCOUNTING POLICIES:

These unaudited consolidated condensed interim financial statements have been prepared following the same accounting policies used in the audited financial statements for the year ended June 30, 2016.

5. IN TRUST DEPOSIT:

The Company's provision consists primarily of assets retirement obligations for costs associated with mine reclamation and closure activities at the Croinor and Beacon properties.

(A) Croinor Gold property:

Following the restoration plan submitted in 2014 by the Company to the Ministère des Ressources Naturelles et de la Faune of the province of Québec ("MRNF") for the Croinor Gold property ("Croinor"), the MRNF advised the Company on January 23, 2015 that the total amount of the financial guarantee for the restoration of the mining site would be $416,155. As at March 31, 2017, the Company has investments totaling $416,155 ($312,117 as at June 30, 2016) in term deposits in accordance with the current financial guarantee requirements set forth by the MRNF for future site restoration costs at the Croinor mining site. These term deposits bear interest ranging from 1.20% to 1.55%, maturing between February 20, 2017 and September 7, 2018.

(B) Beacon property ("Beacon"):

The seller of Beacon submitted a restoration plan in 2014 to the MRNF. The MRNF then advised the seller of Beacon on May 27, 2015 that the total amount of the financial guarantee for the restoration of the mining site would be $1,810,760. As at March 31, 2017, the Company has investments totaling $1,352,690 (nil as at June 30, 2016) in cash in accordance with the current financial guarantee requirements set forth by the MRNF for future site restoration costs at the Beacon mining site. The remaining amount of $452,690 will need to be deposited in a trust account on May 27, 2017.

Balance as at March 31, 2017	**87,719**	**7,163,171**	**7,250,890**

Since the items in property, plant and equipment are not ready to use, the mining assets under construction was not yet amortized.

(A) BEACON PROPERTY ACQUISITION:

On July 5, 2016, the Company signed a letter of intent to acquire the Beacon property from 9265-9911 Québec inc. which were amended on September 28, 2016. The property consists of a metallurgical processing plant, tailings management ponds, underground installations, a 500-metre deep shaft, a mechanical shop, and all mineral rights attached to the transaction, namely one mining concession, one mining lease and 11 mineral claims totalling 180 hectares. The Company also assumed all reclamation liabilities associated with the restoration plan and a deposit held by the Ministère des Finances du Québec of which $1,352,690 is already paid.

The Company closed the acquisition of the Beacon property on October 31, 2016 in consideration of the payment of $1,000,000, a balance payable in cash of US$2,415,600 and the issuance of 3,740,550 common shares, as follows: (i) $1,000,000 cash and 2,431,650 common shares on closing of the transaction; and (ii) US$402,600 payable in cash at the 30th, 36th, 42th, 48th, 54th and 60th month following closing of the transaction. The Company issued 1,308,900 common shares in July 2016 having a fair value of $746,073 and issued 2,431,650 common shares in October 2016 having a fair value of $924,027.

The balance of purchase price will bear interest at a rate of 10% per annum and will be calculated semi-annually. The interest on each of the deferred payments will be capitalized and added to the outstanding principal amount of such deferred payments for the first 24 months. The Company accounted for the fair value of the balance of purchase price using a discount rate of 10%, which is the rate negotiated between the two parties acting independently.

At any time after October 1, 2018 and prior to March 1, 2019, the Company may delay payment of one or more of the first three deferred payments by paying a premium of 20% of the deferred payment delay. The premium will be added to such delayed deferred payment. Such delayed deferred payment will then be payable in three equal amounts on the 48th, 54th and 60th month following the closing in addition to the originally deferred payments due at this time. This option is valued at $nil as at March 31, 2017.

6. PROPERTY, PLANT AND EQUIPMENT (CONTINUED):

(A) BEACON PROPERTY ACQUISITION (CONTINUED):

The acquisition of Beacon property does not meet the definition of a business as the property does not have ore reserves nor does it have a processing infrastructure. Consequently, the transaction has been recorded as an acquisition of asset.

The following table sets out the allocation of the purchased price to assets acquired and liabilities assumed, based on the fair value of the total consideration at the closing date of the transaction. The fair value was estimated based on market participant information that management considered reasonable for assessment purposes and on other factors such as the current conditions of the assets:

	$
Fair value of consideration paid:	
Cash	1,000,000
Common shares issued	1,670,100
Balance of purchase price	3,239,561

9. DEFERRED GRANT:

For the nine-month period ended March 31, 2017, the Company incurred $296,695 ($54,180 for the year ended June 30, 2016) of capital expenditure. Consequently, the Company reduced the deferred grant and property, plant and equipment by $222,521 ($40,635 for the year ended June 30, 2016), an amount representing 75% of the cost incurred during the period. The deferred grant as at March 31, 2017 is $421,219 ($643,740 as at June 30, 2016).

10. ASSET RETIREMENT OBLIGATIONS:

The asset retirement obligations represent the legal and contractual obligations associated with the eventual dismantling of the Company's assets. The laws and regulations are continually changing and are generally becoming more restrictive. The Company conducts its operations so as to protect public health and the environment.

The Company has recorded an asset retirement obligations for costs associated with mine reclamation and closure activities at the Croinor and Beacon properties, which reflect the present value of the estimated amount of cash flows required to satisfy the asset retirement obligations. The primary component of these obligations is for the dismantling of facilities, revegetation of the site including waste piles and overburden, infilled area, and polishing pond. Following the restoration plans submitted in 2014 to the MRNF, the MRNF advised the Company that, to cover the asset retirement obligation of $416,155 for Croinor and $1,810,760 for Beacon, a financial guarantee for the full amount would be required. The Company accounted for an additional provision for restoration work at Beacon amounting to $488,539, for a total provision of $2,299,299 related to the Beacon property.

As at March 31, 2017, the Company invested $416,155 ($312,117 as at June 30, 2016) in term deposits in accordance with the current financial guarantee requirements set forth by the MRNF for future site restoration costs at the Croinor and Beacon mining sites.

In the event the Company has no intention of operating the mine, it will be required to restore the mining site. However, in the case that the Company goes into production on the Croinor and Beacon properties, it will be required to provide an updated closure plan to the MRNF in order to re-assess the asset retirement obligation related to the operation on the site.

As at March 31, 2017, the estimated inflation-adjusted discounted cash flows required to settle the asset retirement obligations amount to $2,725,149 ($416,155 as at June 30, 2016). The discount rate used is 1.71% and the disbursements are expected to be made in 2027. The estimated undiscounted value of this liability was estimated using an expected value approach which combines probability weighted outcomes for a variety of possible scenarios from an amount of $2,509,140 to $2,927,737 (2016 - $416,155) and taking into consideration a normal inflation rate over time until 2027, for inflated costs from $2,981,407 to $3,494,457.
